About Us

With over 50 years experience, ENGO was spawned by innovators. Our innovation in designing, producing, and patenting unique winch solutions for the US Military, OEM, other winch manufacturers, 4X4 markets and other markets ensure we strive to provide you with the best innovation, quality, value and service in the industry. Offering a highly flexible business model, we are an open minded manufacturer', allowing ENGO to provide a broad range of products and services.

Prior to starting ENGO, Drew served as a Director and Chief Operating Officer of Mile Marker winches as his father is the founder. For over 25 years he proudly served the needs of off-road and 4X4 enthusiasts meeting the demands of the off road industry with passion and professionalism. Enjoying the same entrepreneur spirt as his father, he

pioneered power steering pump driven hydraulic winches, designed the winch kits for the HMMWV (Military Hummer) and has designed and developed many winch products that have forever changed the winch industry. Having provided winch solutions personally himself in 27 countries, he understands the wide needs of the winch users everywhere and has facilitated a wide array of products under the ENGO brand. Our products are manufactured taking in mind the need of our clients for an effective, reliable, safe, innovative and attractive solution to best serve the diverse needs of the industry worldwide.
